# Driving Safely

thawte™  
A HAVANT GROUP

## Raising standards, reducing risk, cutting costs.

### What is UNIQUE about **Driving Safely**

We take an holistic view. We believe it is better to **educate** and inform **everyone** who drives on business, not just try and identify high risk drivers. **We don't just profile risk, we reduce risk.**

We train drivers, test their knowledge and understanding and then we do personal risk profiles.

### What does this mean to you as a manager

- ☀ You always have **paper free** electronic records of all driver training and results from that training.
- ☀ You have an **on-line risk profile** of each and every one of your drivers.
- ☀ You have an **audit trail** of risks and remedial action through to resolution.
- ☀ You can demonstrate that you have taken your **duty of care** to your drivers seriously and been proactive in **raising standards** of driving and safety.
- ☀ You have **saved money**. Through reductions in fuel, maintenance and insurance costs. **Driving Safely** very quickly pays for itself and more. We back that up with our UNIQUE **money back guarantee**. See <http://www.chaos-ergonomics.co.uk/?pid=dsmoney> for details.

### What else does it offer

- ☀ It reduces environmental impact.
- ☀ It delivers a **consistent message**, any time anywhere, paper free and travel free and shows drivers how to reduce their carbon emissions.
- ☀ It encourages responsible behaviour, **good for the planet, good for you.**

### Contact details.

We would really like to **come and demonstrate** the full capabilities of **Driving Safely**.

To arrange this, please call Chaos Ergonomics on: **01822 611445** and speak with either:

**Gerald Whitehouse** (mobile 07767 756736) or

**David Mutteen** (mobile 07973 106645).
